

Core Functions of Church - Acts 2:36-47

Discuss what your group needs to do to become like the church described in these passages.

_____ / _____ / _____

CHURCH NAME: _____

GENERATION #: _____

As a group, on a blank paper, draw a dotted line circle representing your own group. Above it list the number regularly attending, the number believing in Jesus, and the number baptized after believing.

If your group has committed to be a church, make the dotted line circle solid. If you regularly practice each of the following elements then draw a picture of the elements inside your circle. If you don't do the element or you wait for someone who's not part of your group to come do it, draw it outside the circle.

What is your group missing that would help make it a healthy church?

When all functions are being performed regularly by the group, then a healthy and sustainable church has been born! Now go and make disciples, teaching them to do the same!
